DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 22 December 2003 has been entered.

Status of the Claims

This action is in response to papers filed 22 December 2003, the papers comprising a Request for Reconsideration and Declaration under 35 U.S.C. § 1.132 were submitted.

The papers have been thoroughly reviewed. The previous rejections of Claims 1-17 are withdrawn in view of the Declaration, especially paragraphs 15-17.

Authorization for an examiner's amendment to cancel Claims 18-21 was given in a telephone interview with Noreen Connolly on 13 October 2004. However, due to the formal matters detailed below, the examiner's amendment has not been entered.

Claims 18-21 are withdrawn from prosecution.

Claims 1-17 are in condition for allowance.

Allowable Subject Matter

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

Art Unit: 1634

Drawings

The drawings filed on 17 March 2000 are acceptable subject to correction of the informalities indicated herein. The drawings are objected to because Figures 6 and 11 contain nucleic acid sequences not identified by "SEQ ID NO:". The nucleic acid sequences must be identified by "SEQ ID NO:" either in the drawings or in the Brief Description of the Drawings (pages 20 and 22).

In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.

Conclusion

Claims 1-17 are in condition for allowance.
